

BOLLINGER MOTORS

A lot has been going on since our reveal in July. First we did a lot of [testing on my farm](#) in the Catskills and [dyno testing](#) to validate our work and get a ton of data.

Then it was off to the Longhorn River Ranch in Austin, Texas for the [Texas Truck Rodeo](#), where the B1 was the only all-electric truck in attendance. TAWA member and iHeart Radio show personality Harold Gunn taped a [podcast segment](#) with me from the show as well.

From there we headed to the [Rocky Mountains](#) in Colorado, the [Sand Flats](#) in Utah and most importantly in [Moab!](#) Then we headed to Las Vegas for the [SEMA Show](#).

and parts for the B1 production vehicle. We're moving forward on all aspects of production and will have a retail price very soon to announce.

Our next stop will be at the [Los Angeles Auto Show](#) which runs from December 1st through December 10th. If you're around please stop by our booth in the West Hall and see the B1 in person. Hope to see you there.

Thank you all for your continued encouragement and support.

-Robert Bollinger
